

NLR puts the control, the power and the promise of experimental network infrastructure in the hands of our nation's scientists and researchers.

Present members include CENIC, Pacific Northwest GigaPop, Pittsburgh Supercomputing Center, Duke University (representating a coalition of North Carolina universities), Mid-Atlantic Terascale Partnership, the Virginia Tech Foundation, Cisco Systems, Internet2, Florida LambdaRail, Georgia Institute of Technology, Committee on Institutional Cooperation ... and more are pending!

National LambdaRail *light the future*

For more information, stop by the NLR booth (#3409) or visit our site

at www.nationallambdarail.org.
